of the story. It notes that the discs are composed of cobalt, iron and nickel—the only metals to produce a magnetic field. Nickel is found largely in Canada and Central Africa, but in recent years it has been found in China, in the general area where the discs were located.

For Hausdorf, this is a further indication that the story is factual, for this find post-dates the discovery of the discs—and the 1962 article. In short, what in 1962 was unlikely and improbable has now been confirmed.

### A New Expedition

Baian-Kara-Ula remains one of China's most remote regions. Its mountains reach as high as 5,000 metres and descend to 2,000 metres. Despite the altitude, summers can be pleasantly warm in this region.

It is now said that a new expedition is being prepared and will soon be under way. It is apparently largely an initiative of Chinese media empires, its main sponsor being the *China Daily* newspaper. If the participants are able to get their act together, it might not be another decade before this story takes yet another twist.

His article, "The Strange Stone Discs of Baian-Kara-Ula", which contains more background on the mystery, was run in NEXUS 3/01 in 1995-96. Coppens is the author of several books including *Land of the Gods: How a Scottish landscape was sanctified to become Arthur's "Camelot"* (reviewed in NEXUS 15/01). ### EX-ASTRONAUT EDGAR MITCHELL SAYS UFOS EXIST

Retired *Apollo 14* astronaut Dr Edgar Mitchell, the sixth man to walk on the Moon, went public on Kerrang! Radio in the West Midlands, UK, on 23 July 2008 with his confirmation that UFOs and aliens do exist, that they visit our planet, and that governments have been covering up the truth for at least the last 60 years.

Interviewed by Nick Margerrison, host of *The Night Before* team, Dr Mitchell assured with this comment: "The amount of misinformation, covert and actual attempts to cover up, seem to be decreasing. I think we're headed for real disclosure by some serious organisations moving in that direction."

### A FORMER NASA SPACECRAFT OFFICER ADMITS ETs ARE REAL

by Clark C. McClelland  
© July 2008

In support of my friend, courageous NUS astronaut Edgar Mitchell, *Apollo 14*:

I, Clark C. McClelland, former SC0 [Spacecraft Officer], Space Shuttle Fleet, personally observed an eight-to-nine-foot-tall ET on my 27-inch video monitors while on duty in the Kennedy Space Center [KSC], Launch Control Center (LCC). The ET was standing upright in the space shuttle payload bay, having a discussion with two tethered US NASA astronauts.

I also observed on my monitors the spacecraft of the ET as it was in a stabilised, safe orbit to the rear of the Space Shuttle main engine pods.

I observed this incident for about one minute and seven seconds—plenty of time to memorise all that I

was observing. *It was an ET and alien starship!*

To all who have faith in me, I present you with this artist's concept [overleaf] of what I saw many years ago at KSC. It was a tall creature, about eight to nine feet tall. It had a humanoid body shape with two arms, two hands, two legs, two feet, a slim torso and a normal-sized head for its size. The colour of its skin I could not determine. It appeared to have two, what appeared to be, eyes but it was not detailed enough for any other comments.

How did it communicate? I have no idea. It did move its arms a lot—almost like giving instructions.

I heard no voice communications. The helmet was not as large as [the helmets of] our two NASA astronauts, and had a viewport to look forward. It had a small, perhaps a communication, device attached only to the right side of the helmet.

I saw no oxygen tank(s). It had a wide belt like wrapping around it. It did not appear to be tethered as the two astronauts were to the sides of the shuttle structure. I observed nothing that appeared to be a weapon.

The time [duration] of this amazing scene was one minute and seven seconds. I timed it on my astronaut chronograph watch.

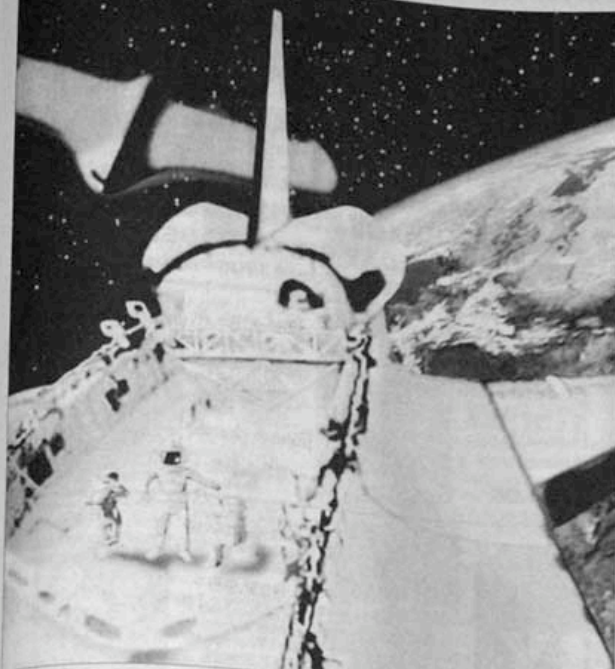

A friend of mine later contacted me and said that this person had also observed an eight-to-nine-foot-tall ET inside the space shuttle crew compartment! Yes, inside our shuttle! Both missions were DoD (Pentagon) Top Secret (TS) encounters.

With my verifiable background, there is no federal government agency that can say I am crazy!

I am a space program pioneer. I assisted in launching the *Mercury*, *Gemini*, *Apollo*, *Apollo-Soyuz*, *Skylab*, *Space Shuttle* and *Deep Space* missions and the *International Space Station*.

I have received character

substantiation from: Walter Cronkite; Major Donald Keyhoe, [former] NICAP Director; Richard Hall, [former] Assistant Director of NICAP; astronomer Dr J. Allen Hynek; etc. I served as the Assistant State of Florida and MUFON Unit Director at the KSC, and the Director of NICAP (National Investigations Committee on Aerial Phenomena) at Cape Canaveral and KSC. I have received honoured mentions from US senators, congressmen, military officers and scientists.

(See my website, [www.stargate-chronicles.com](http://www.stargate-chronicles.com), for more disclosures.) In fact, this absolutely verifies what

my friend, astronaut Edgar Mitchell, of *Apollo 14*, has recently and courageously released.

I have launched or witnessed 650 missions so far in my life. I am an expert in visually recognising any craft created and flown by the human race, whether secret or otherwise. I know ET and alien craft when I see them! I was the Director of the NICAP Unit-3 actual "X-Files" at Cape Canaveral and the Kennedy Space Center from 1958 to 1992. Yes, the actual "X-Files"!

*Aliens are here!* They walk among us. They may be implanted into our various Earth governments.

What I know, they would *not* allow me to publish. I have written at least three books to release the truth to all of the human race. I was on the leading edge of this subject, and I met with many NASA and other astronauts throughout the years that I was involved in military and NASA space programs, i.e., 1958 to 1992. I have heard many experiences of ETs having been seen on the Moon, etc., by NASA astronauts and I relate these and more in my books.

NASA is *not* a civilian space agency. The Pentagon owns NASA! Some of the DoD (Department of Defense) missions I participated in were *Top Secret*. Those missions carried TS satellites and other space mission hardware into orbit, where several crews met with ETs! I am ready to tell my story, but for compensation.

Please visit my background page to see documents, awards, certificates, photos—proof of my honourable past in the space industry, the United States space program and with NASA, as well as showing some of the recognition I have received from NASA astronauts.
